"How a Full-Time Dancer Rocketed His Trading Account From $25,000 to $2.25 million, Over 18 Months And How You Can Do The Same In Only 15 Minutes Per Day."

Amazing secrets discovered by Nicolas Darvas can identify significant market price moves before they happen. Imagine... each of your entries as accurate as clockwork!

Dear Friend,

If you are serious about trading profitably this will be the most important letter you will ever read. Here's what it's all about...

My name is Jimmy Cox and, until very recently, I was a full time engineer and a part time trader. One of my hobbies was tinkering around with trading systems trying to dream up ways to make them work better. I tried out all sorts of ideas until... one day... *I hit the jackpot!*

I swear, I've never seen anything like this. I only wish I could take credit for it. To tell the truth, I wouldn't have rediscovered this myself except for one day when I had stumbled upon an old book named "How I Made 2 Million Dollars In the Stock Market."

You may have read this book or even heard the intriguing story about a young ballroom dancer name Nicolas Darvas who traded $25,000 into 2.25 million dollars within just 18 months by using the stock market. In today's terms that would be worth well over 20 million!

His story was so amazing, on May 1959, the Time Magazine devoted almost a full page in its business section to the extraordinary stock market story. But here's the kicker, Darvas remarked it wasn't so much how much money he made that surprised him but rather the ease with which he made it.

Nicolas Daravs
Trading Pioneer

Understandably, the deeper I began to dig into his story the more fascinated I became and the more fascinated I became, the deeper I began to dig.

I became obsessed with the famed Darvas box trading method.

I read everything I could find on Darvas; books, reports, interviews, white papers and I even found a rare tape set that revealed some tremendous insights. Through hundreds of man hours work, I began to piece together the original Daravs trading method few have ever seen.

What I found most revealing was the fact that when comparing Darvas' system to many other trading systems it's clear why most trader's lose money. In short, there is a "fatal flaw" built right into the design of almost every other trading systems' entry and exit rules.

Because of this flaw no one (not even the top pros) have been able to rely 100% on their trading systems. In fact, until now much of a trader's success has been the result of nothing except a raging bull market. It's true, "all boats float on a rising tide."

The fatal flaw.

99% of trading systems will give you too many false signals... they're just not reliable. The trader is whipsawed in and out of trades and the only person who ends up making any money is your broker.

Traders, even the best of them, have had trouble with their entries and exits ever since people first began speculating on the stock market.

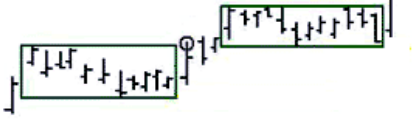
Now at last the problem is solved.

It took Darvas a lifetime of research, over $450,000 and a near fatal accident before he discovered a trading system so reliable I worry about the Securities and Exchange Commission (SEC) making it illegal.

Like most other trading systems it has its entry and exit rules clearly defined... but the

VISIT…

difference isn't in each of these components... it's in how to all works together! Shockingly, to this day, I am yet to find another trader correctly applying the Darvas box method, as Darvas would have traded it himself.



To Learn To Read This Darvas Chart Click Here

Why am I sharing these secrets?

Understandably, you may be a little skeptical and I don't blame you. If I were you I would be thinking, "if this trading system is so fantastic why would he be sharing it with anyone?"

Well, over the past 3 years I have been quietly extracting huge profits from the market, and NOT sharing my results with anyone. Looking back I now realize I had fallen into a self limiting mindset by keeping these trading secrets to myself... I mean, these secrets weren't even mine to begin with.

It has always been a core belief of mine that the world is abundant and that there is more than enough for everyone. Sadly, over recent years I had forgotten these fundamental truths and this has taken its toll in other areas of my life – it's funny how the universe works.

I won't bore you with the details, but suffice to say...

I am setting things right.

I have decided to create a unique training product that shows the individual trader — from beginner to pro — how to identify stocks ready for a significant market price move.

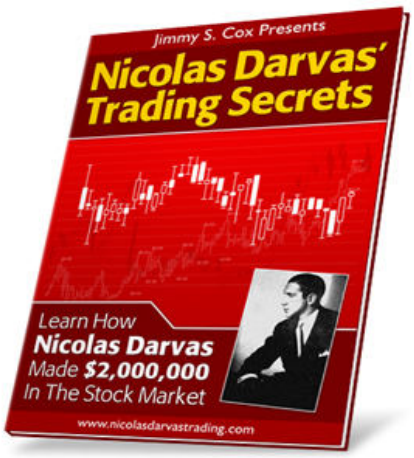
I wanted to create a simple (yet comprehensive) step-by-step "system" that would allow ANY trader, at ANY level, to learn how to use the Darvas box method properly, quickly and effectively.

Introducing...

The Nicolas Darvas Trading Secrets Home Study Course

In this truly a one-of-kind, packed-to-the-rim course, I reveal the precise steps you must take to trade the Darvas box method. Every last step is explained for you in full detail. Nothing is omitted, nothing is left to guess-work and nothing else is needed to hold it all together.

This isn't some $19.95, 10 page, size 16 font ebook that doesn't tell you squat about trading. I really believe this course will, over time, be known as the definitive guide to Darvas trading.



Click Here To Order

Here's a few of the specific things you'll discover in my home study course:

- How to *duplicate Darvas' reliable and repeatable trading method* in today's markets and achieve phenomenal results. This is a step-by-step plan which no-one else is using - and it works!!

- The secret to "buying dear and selling dearer," confusing this with "buying cheap and selling dear" could potentially cost you thousands of dollars in profits and losses. You absolutely must know the difference!

- How to *pinpoint the perfect time to close your trades* for maximum profits... never again exit a position too early or exit too late. Learning this secret will enable you to let your profits run while also simultaneously cutting your losses.

- The *20 point checklist* detailing every insight Darvas gained over his illustrious trading career. You will gain a lifetime of learning guaranteed to improve your trading and confidence immediately.

- The 3 critical components that your trading system must have - without just one of these components and you're guaranteed to fail.

- The *precise trading rules* that detail exactly where to enter, and exit your trades. These are the secrets Daravs used to beat the trading professionals at their own game - it's all in your timing.

- Discover why if you're not writing down your trading rules correctly, you're sabotaging your success. Mastering this one element could mean the difference between dismal failure and run away success.

- Discover *the fatal flaw* built into the design of almost all trading systems and more importantly how the Darvas box method takes advantage of this flaw.

- Which subjective, biased and conflicting indicators Darvas avoided and how you too can implement similar strategies to protect yourself from this harmful information.

As you can see, I've left nothing out. I have included every profit-pulling strategy Darvas used to be successful... and there's more...

- The golden rule to develop a zen like, laser-focused self-discipline. Once you apply this technique you will be unstoppable, not only in your trading but in your life too!

- How to let the market identify support and resistance lines and then use this knowledge to *spot significant market price moves before they happen...* any self respecting trader wants to know these secrets.

- The best way to use automatic buy orders and automatic stoploss orders to effectively automate your trading system and replicate Daravs' near perfect system implimentation. These strategies enabled Darvas to tour the world, pursuing his ballroom dancing career, while also managing his portfolio with ease.

- Discover how Darvas proved that great traders a made, not born. Finally you will have proof you need that you're not chasing a pipe dream - you too can be a successful trader.

- How to *set yourself free from tips, rumors and advice* from those who don't know the first thing about trading profitably. Just imagine how much extra time you'll have when you know how to ignore the crap!

- How to design a reliable trading system that takes the stress out of trading - don't believe for a second that you must be trapped behind the screen all day. Finally, spend your time doing the things you love.

- The precise formula you can use to define a stock's volatility and risk. Without knowing this method you're needlessly putting yourself into high risk trades – doesn't it make sense to manage your risk?

And of course there's loads more to learn.

Right now very few people know about my Darvas Trading Secrets Home Study Course. But, about three weeks ago I shared it with two of my closest friends. Here's what they have to say:

"...one of the most solid trading course I have ever seen."

"Congratulations Jimmy, this course is one of the most solid trading course I have ever seen.

Not many people know but my personal trading system (the one I currently trade to this day) is based the Darvas box trading method. I believe this to be the most powerful, trading method I have ever come across. It's simple, robust and more importantly incredibly accurate.

As far as I am aware your course is the first 'complete' Darvas trading system ever documented and it's sure to be a winner for all who trade it.

I honestly believe for $97 people might actually not realize how powerful this course is... Those who take the time to fully study and apply your teachings will be well rewarded.

Again, congratulations and thank you for your service to the trading community."

David Jenyns
Professional Trader, Author and Coach.
www.meta-formula.com

"...doing yourself a severe dis-service if you do not purchase this course right now."

"I'm almost at a loss for words to express how I feel about the Darvas Package that you've put together. What you've done here is truly profound, and I don't use the term lightly.

The Darvas trading method you reveal in the Nicolas Darvas Secrets course is so ground breaking I feel honored to have taken part in its production.

What makes it so profound is its simplicity and clarity. Not just the method, but the perspective on trading. I was so inspired by your work on Darvas that I created a special whitepaper summarizing Darvas' insights.

Nothing has moved me quite like the Darvas story because it just makes so much sense. There is almost an elegance to it.

What is it worth to have your eyes opened and the light bulbs come on? It's hard to put a dollar value to something that can alter the course of a trader's

career, and it is certainly worth literally hundreds of times what you're asking for in exchange for this course.

If you're new to trading, or even a seasoned pro, I sincerely believe that you would be doing yourself a severe dis-service if you do not purchase this course right now."

Brian McAboy, creator of "The Subtle Trap of Trading"

The One Flaw In This Course

The only negative feedback I received from those who reviewed the preview copy of my course was that to fully explain the Darvas method, they suggested I include some additional training videos. Unfortunately, due to my limited video skills, I had decided to release this course without them – the manual more than comprehensive enough.

When I mentioned this to Brian McAboy, knowing full well how much value this would add to my course, he volunteered to assist me in recording these videos. In hindsight I am glad we persisted and I am absolutely convinced you're going to love this 60 minute presentation...

Your Best Shot At Success

My goal is to have you look back, when you're trading profitably - living the life of your dreams - and realize that this was the best investment decision you have ever made.

To do that I need to be sure you have all the tools you need to start trading...

In the past, as I'm sure we've all seen many times in other offers, there's a tendency for the author to give away hundreds of dollars in bonuses that really aren't worth the disk space they take up.

I've made a effort to steer clear of this usual hype and I've added only my most valuable bonuses...

Let's take a brief look at each one.

The Darvas Blueprint

This blueprint gives you an at-a-glance summary of the entire Darvas Trading Secrets Home Study Course. It will make a very handy reference guide when trading the Darvas system!

How many times have you read a

manual and tried to organize your notes into an easy-to-follow summary? It takes a lot of time and effort, and you still find yourself referencing the source material. That's why I created this awesome blueprint.

You can print out, review it regularly and trade profitably as a result!

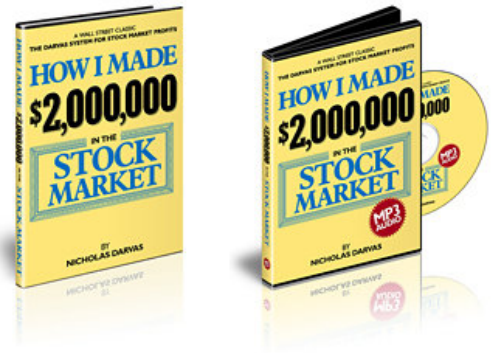
The Original Darvas Story (valued @ $57)



Through great expense I have acquired the rights to Nicolas Darvas' original story "How I Made 2 Million Dollars In The Stock Market."

Although, this book doesn't actually detail the trading rules Darvas used to trade so successfully, it does provide many great insights into the history leading up to his tremendous success in the markets.

Needless to say, I have spent hours studying this story and to this day I continue to find new distinctions that improve the quality of my trading. It has been dubbed a "Wall street classic" and upon reading it you will soon see why.

You will receive both the original manuscript and MP3 audios. I actually sell this bonus on another website for $57 (**www.darvassecrets.com**). But you will get it as a free bonus.

Bonus Darvas Articles

I believe that I have now proved beyond a shodow of doubt that I have researched the Darvas boxing trading method well beyond what any other trader has ever done.

As could be expected, I have come across some amazing articles and research reports that played a pivotal part in piecing together Darvas' original trading method. Within this bonus I have provided what I consider to be the best of the best of these articles.

I am not suggesting that my work is in any way incomplete, but I do know the benefit in reading additional material covering similar concepts. It will further crystallize and internalize your new learnings.

I am sure you will find them an extremely valuable addition to what is quickly becoming the definitive guide to Darvas trading.

Bonus Charting Formula

Despite the fact that Darvas successfully traded his method without the use of computers I, like most traders, now use a charting package to aid in my trading.

This bonus gives you the actual charting formulas needed to identify trading candidates as Darvas would

have done himself by hand. The code is written for the follow programs:

MetaStock
TradeStation
Wealthlab
Ami Broker
Esignal
Neo ticker
Trading Solutions
Bright Spark

Click Here To Buy Blueprint Now

Please remember Darvas successfully traded his methods without the use of computers and even if you don't have one of these charting packages it doesn't mean you won't be able to trade using his methods. This is simply a bonus for those who use one of the above mentioned charting packages...

Note: I am not a programming whiz and I don't really know much about these charting packages. Each of these formulas have been verified but I don't provide any support for them. They are provided "as is" and it's up to you to incorporate them into your trading.

Hidden Bonus – To Be Announced

This isn't some sneaky marketing tactic, I have a legitimate reason for making this bonus unknown. I'm in the process of purchasing the rights to a unique software package that makes identifying Darvas' stocks super easy.

At this stage I am a little hesitant to say any more since I don't want you to purchase based upon this bonus alone... Suffice to say, this program will be worth more than the entire price of this package if I can secure the rights.

With all this knowledge can you imagine the turbo power you can add to your trading profits?

After you learn how to trade using the Darvas method, your profits will explode. I promise you, once you go through my course, you'll never look at trading the same way again. It really is that powerful.

By now you must be curious about the price.

Earlier I explained my motivation with regards to why I am releasing this course... it's not all about the money... I believe in a world of abundance.

I also understand that unless a fair price is paid for an item people have a tendency to underplay its value.

So after lots of back-and-forth, I decided on

$97 USD for the entire Nicolas Darvas Trading Secrets Home Study Course shown below... Click Here To Order

The fact of the matter is, I could easily sell this course for much more... especially when you consider this course has the potential to pay for itself with one good trade. In the future I plan to sell a physical version of the same course for $367, at which time the digital version be raised to $197.

If you're still sitting on the fence, I want to show you I'm so confident you'll love this course by offering a very special 100% Risk Free Guarantee.

Here it is -- see if you think this is fair...

100% Risk Free Guarantee

Go ahead and order now.

I'll send you the entire Nicolas Darvas Trading Secrets Home Study Course via immediate download. Then, you can take advantage of my entire course.

If you don't like the course for any reason, just return it within 56 days of purchase and I'll refund 100% of your purchase price – no questions asked.

This gives you plenty of time to review ALL the materials, ask questions, and even make your first investment before you ever have to decide if this is right for YOU!

There is NO RISK whatsoever. It's that simple.

The Long And The Short Of It.

Let's, be REAL clear; I'm making no promises regarding your actual earnings - and I'm not putting any limitations on how much you could make either.

I don't need your money. I am not a marketer, I'm not a guru, and I don't have any other trading products I sell online. I am a trader. I am one of the few who simply make their living trading the markets.

In fact, these days, with my trading system almost fully automated, I don't even do much of that. I spend time with the most valuable asset in the world... my family.

I am not looking for fame and glory by releasing this product... I just want to help other traders achieve the same level of financial success I have.

If you can see the value in what I have to offer just click the link in the box below.

☐ **Yes, Jimmy! I'm ready to discover Nicolas Darvas' Box Trading Method!**
